Intern Developer

ABOUT ME

Fourth-year Software Engineering student focused on fullstack development, with experience developing e-commerce web applications and backend systems. Seeking a Backend Internship to apply and expand my backend engineering skills.

EDUCATION

SOFTWARE ENGINEER
Ho Chi Minh City University of Technology (HUTECH) 2022 - 2026
GPA: 3.40, 2 Certificates of Merit.

PROJECTS

E-COMMERCE **20/02/2026 - 09/03/2026**

- Developed a responsive e-commerce platform with backend and React.js frontend for product browsing, cart management, and checkout.
- Backend follows layered architecture with Redis (caching), Cloudinary (media storage), and OpenSearch (product search).
- **Tech:** React.js, JavaScript, REST API, Redis, Cloudinary, OpenSearch.
- **Github:** https://github.com/quangvinh-crypto/E-commerce.git

WEBSITE EVENT MANAGEMENT **21/09/2025 - 07/12/2025**

- Built a full-stack event management platform with role-based access, approval workflows, and online ticket booking.
- Integrated MoMo, VNPay, QR e-ticket generation, email confirmation, SignalR group chat, and Gemini content generation.
- **Tech:** ASP.NET Core 9, C#, EF Core, SQL Server, SignalR, Gemini AI, Cloudinary, MoMo, VNPay.
- **Github:** https://github.com/quangvinhcrypto/Website_quanlysukien_hoithao.git
